

ACCESSORY C-BAND BAND PASS FILTER

APPLICATIONS

- Rejects terrestrial interference in C-Band (3.4 to 3.7 GHz)
- Easily installed between the feed and LNB
- Suitable for use with Norsat's C-Band LNBs
- Rugged die cast aluminum chassis
- Environmentally sealed and moisture resistant

TYPICAL SPECIFICATIONS

Frequency range	3.70 to 4.20 GHz
VSWR maximum	1.9 : 1
Insertion loss maximum at 3.95 GHz at pass band edge	0.5 dB 0.95 dB
Waveguide flange	CPR-229
Dimensions	TBD
Weight	TBD
